Aircraft Rental Increase Notice

Over the past several months the fuel costs have increased significantly. We tried to absorb this, but find we can no longer operate without raising our rates.

Effective August 1st, 2022 the airplane rental rates will be increasing \$20 per hour due to the high cost of fuel. The Duchess will increase \$35 per hour.

Recently the auto fuel prices at the pump have lowered, however the Avgas have not been dropping the same way. When Avgas fuel costs drop down to the same threshold we had in February, we will be able to lower the costs on rentals.

Sincerely,

Mark C. Damuth
