## Backcountry Experience Training

Small grass and dirt  
strips are calling you!  
Are you Ready?

Are you looking to expand your light aircraft experiences? In our best New England summer weather, learn how to get in and out of small grass and dirt strips near the White Mountains and along the coast of Maine. We have dozens of great chartered and non-chartered airports that we are able to fly into! We can bring a picnic lunch, stop for ice cream at a dairy farm, and buy lobster for dinner along the coast! The options for this four hour adventure are nearly limitless. No previous experience required but you must at least have a student pilot certificate.
